While inside my dreams
What I want to be is what I'll be
There inside my dream
All I want to see is what I'll see
Watch me as I rise
Into the night!

Soon inside a dream
Where I long to be is where I'll be
There inside my dream
Magic melodies resound in me
Now watch me as I rise
Into the night!

Now watch me rise into the night to a dream that calls
me
In dreams I hear so clear a music that enchants me
There the magic I find in the rhymes and music in me
Have the power to alter the flow and currents of seas

Now watch me rise into the night as I dream
Now watch me rise!
