Suck it and see
You might believe
And suck it and see
You might conceive
Give my soul to what I know
And take it's toll
You won't console
You're shaking
Do you wanna break it down
Do you wanna kick it
Do you wanna let it go
Let me take you down with me
Do you wanna break it down
Do you wanna kick it
Do you wanna let it go
Let me take you down with me
Follow on through on what you do
You're changing
Walk with me through the valley
Bite your tongue
You can't go home
Suck it and see
You won't conceive
You're changing
Changing
Do you wanna break it down
Do you wanna kick it
Do you wanna let it go
Let me take you down with me
Do you wanna break it down
Do you wanna kick it
Do you wanna let it go
Let me take you down with me
