(Chorus X2)

In the jungle I was tossed, found the hearts that I lost
Now I can see above the clouds
As long as time halts, I'm puffin this green moss
Oh, I can see above the clouds

(Verse 1)

I can see it with my eyes closed
Bandana tied, blind fold
The world is beyond cold
When you raised where the nines hold
And your older brother dime sold

Sitting on state road for the time served
Do the push-ups just to time burn
Reading Quran 'til your eyes burn
Mama crying them tears, tell you what God knows

Crime pays, never keep receipts
That Diablo's a damn devil. Kick the bucket seats
You can cry me a whole river when the reaper meets
Sure to be deceased, ocean beneath your beach

Quick sand underneath your feet
Tuck you in tightly, underneath the sheets
So hard to say goodbye, dying on lined paper
Lie under nine acres. Excuse the yellow taper

Fel Mula

(Chorus X2)

In the jungle I was tossed, found the hearts that I lost
Now I can see above the clouds
As long as time halts, I'm puffin this green moss
Oh, I can see above the clouds

(Verse 2)

Pushing in Philly... Relax, twist up a Phillie
I spit it too real. You niggas gotta feel me
But until you niggas kill me...
My head it in these clouds, feet on the ground

I ain't coming back down. I'm too high up
Spark the L and get high-er
Never took an L since you known Fel
I play my part well.

Life is a movie.
I'm no actor. You can't shoot me
Roll with goonies,
I can get you smoked for cheap just like a loosie

Praying for rain when them bullets fall
Angels call
Coming from all angles, handles give you hands
You feel them all

Fuck 'em good
Fuck 'em hard
Don't fuck with plastic, fuck 'em raw
They gettin' jammed, no paper jam. I'm calling all
cards

In the sky, fly with devils for a higher lever
Make it out rich. Life's a bitch so I'll never settle
Living life on the edge to get ahead
Gotta pray so I don't end up dead. And that's all she
said

(Chorus X3)
In the jungle I was tossed, found the hearts that I lost
Now I can see above the clouds
As long as time halts, I'm puffin this green moss
Oh, I can see above the clouds
