"O! What A Dream It Was"

I know I'll never be beautiful
But you kissed me once, in the sun
I know I'll never be loveable
But you made me think I was wrong

And you say: "it doesn't matter,"
But I want to scream: "it does!"
You made our little dream shatter
But oh, what a dream it was

I could've just run away with you
But you didn't want me along
I spent my one happy day with you
But when I woke up, you were gone

And I always knew you were faking
The little moon-beam that was us
And I wish I'd never awakened
And lived in a dream
Because oh, what a dream it was
