You and me
Go together way too easily and
You and me
Get together, Oh! what a night it be

I see you lookin' me up
You see me lookin' you down
I move my feet to the beat
You move your hips to the sound
You wanna stay out all night
We'll just have to see
You run your hands through my hair
You whisper to me

Bright lights won't last forever
Tonight becomes tomorrow
That's when she will start to lose control
That's what I thought
And I know
Her body moves
I know what to do
Gotta get closer, I can't get enough of you
Tonight will be the best night of our lives

Since it's Saturday she's gonna stay out late
She's gonna dance all night until it is Sunday
Must be 3am but I don't have a watch
I can't concentrate cause the moves she's got

I see you lookin' me up
You see me lookin' you down
I move my feet to the beat
You move your hips to the sound
You wanna stay out all night
We'll just have to see
You run your hands through my hair
You whisper to me

Bright lights won't last forever
Tonight becomes tomorrow

That's when she will start to lose control

That's what I thought
And I know
Her body moves
I know what to do
Gotta get closer, I can't get enough of you
Tonight will be the best night of our lives

I see you lookin' me up
You see me lookin' you down
I see you lookin' me up
You see me lookin' you down, down
I see you lookin' me up
You lookin' you down
I move my feet to the beat
You move your hips to the sound
You wanna stay out all night
We'll just have to see
You run your hands through my hair
You whisper to me

Bright lights won't last forever
Tonight becomes tomorrow
That's when she will start to lose control
