On halloween night they visited us  
Broke our door, and knocked me out  
Raped my girl, and took her life  
But, I, I've survived

All the time I'm alone  
Remembering that cruel night  
I don't know why I lost her  
There's no reason, and no sense

Ten years later my time had come

I found them in a rotten house  
Without a chance I shot them down  
So we can rest in peace

A long time ago I lost my girl  
In my dreams she is still alive  
In these nights she visits me  
The pain cuts deep like a knife
