I don't care if you think it's cool,
Fucked up and I'm ditching school
I don't wanna go back to town
With my face to the ground and I'm upside down.

I just wanna get really high,
Smoke weed until I die,
I don't ever wanna get a job,
If I fucked up today, hey, nothing's wrong.

Get pissed up by the hills,
Cocaine and shitty pills,
Get head in a broken car
With the windows up and the lights turned off.

There's nothing wrong with living like this,
All my friends are pieces of shit,
Busted chin and a bloody nose
And I'm covered in dirt from my head to my toes.
