You know damn well where he was last night
It makes no sense everyday you fight
Makes me so mad what he puts you through
When im the only man that's made for you

Why must i sit back and dry your tears (your tears)
Just get with me and I'll erase your fears

[chorus:]

Girl it's about time to let him know
You have a real man so he's got to go
Don't just have me in the background
Stop keepin him around
Its about time for him to leave
With open arms you i will receive
Its about time to let him know
That it's about time to let him go

Girl im not scared of what he'll say to me
He's not a man don't give in so easy
Girl understand just for you I'll be
Ill work to jobs to supply your needs

So must i sit back and dry your tears? (Dry your tears)
Come n' get with me and I'll erase your fears

[Chorus]

Im not like him girl I'll never lie
Or make you cry
I'll ease the pain and feelings down inside

[Chorus]
