

Psycroptic "Poop Rally"

Avert your eyes from clouds of nobility. Seedy physics
will fail the drama.
Discomforting the princess of majesty. Time will freeze
and allow us to dump the wound.
Mr. Yucky our friend is trying to warn. But the warning
can do us no good.
Simply bide your time, hope that somewhere,
somehow. Time will freeze and allow us to
Dump the wound.
Privacy. Shameless purge. Nature rots. Force a secret
for...
Now.
Complications have led me to ritual. Evidence will
expose the pristine.
Drop and clean and conceal the activity. Time will
freeze and allow us to dump the
Wound.
Fear of capture has led us to secrecy. Blow the whistle
and stink of degrade.
During dinner our thoughts were deluding us. Time will
freeze and allow us to dump the
Wound.
Discover your beauty perched and purging. Captivated
by your memories of nothing?
