I swear into your eyes with  
Loving lapse of time we fuck as liars

Imagine nothing more than  
You and I and alibis

Lovers hold liars

Be with me when you breathe  
In your perfume's liquored stowaway

Be with me when you sleep  
With your clandestine heart's imposter  
With your clandestine heart's imposter  
In your wedding bed

You swore into my eyes listing lustful vows and lies,  
you  
Fucking liar  
Fucking liar  
Liar

I need you more than some  
Cheap bar room whore's number  
Under a matchbook cover does

Forget me not  
I remember everything you said  
You said you love me  
You said you need me

Forget me not  
Like scripted lies being well rehearsed  
Forget me not  
Like lipstick on your collar  
Forget me not  
Like some cheap whore!  
Forget me, you fucking liar

You said you love me  
You said you need me

Forget me, I'll fucking kill you

You said you love me

Hold me closer, you fucker

I will never leave you  
Just disclose and betray you  
'Til' lovers can't believe you  
And only I will love you
