Now this is when the worlds collide
now this is whats it' like

Now this is when the worlds collide
now this is whats it' like

What is it really that is going on here
you've got the system for a total control
so is there anybody out there
now watch us suffer
cause we can't go

what is it really that is in your head
what little life that you had just died
i'm gonna be the one that's takin' over
now this is what it's like when worlds collide....

are you ready to go
cause i'm ready to go
what you gonna do baby,baby
are you going with me
cause i'm going with you
that's the end of all time

What is it really
that motivates you
the need to fly
or this fear to stop

i'll go along
but you realize
when we get there
i say 9 of 10 drops

now who's the light and who's the devil
you can't decide
so i'll be your guide
and one by one will be hand chosen
now this is what it's like when worlds collide.....

are you ready to go

cause i'm ready to go
what you gonna do baby,baby
are you going with me
cause i'm going with you
that's the end of all time

voice: you are a robot

Now this is when the worlds collide
now this is whats it' like

Now this is when the worlds collide
now this is whats it' like

what is it really
when they're falling over
everything that you thought is denied
i'm gonna be
the one who's takin over
now this is what it's like when worlds collide....

are you ready to go
cause i'm ready to go
what you gonna do baby,baby
are you going with me
cause i'm going with you
that's the end of all time

are you ready to go
cause i'm ready to go
what you gonna do baby,baby
are you going with me
cause i'm going with you
that's the end of all time

are you ready?
yes, i'm ready
are you going?
yes, i'm going
that's the end of all time
