Truth is such a funny word
When you speak in tongues no one else has heard
Did you forget yourself
I see your dressed as someone else tonight

I wish that I could see you in a better light
Oh, I should have realized this from the start
You aren't who you say you are

Always the same
Always the same
In a way I feel your pain
I'll take the blame
But I'm not falling for you again

A liars tongue stuck in another lie
Your so full of doubt it's mirrored in your eyes
I can't go on like this
Tonight I am just a character, convinced

I wish that I could see you in a better light
Oh, I should have realized this from the start
You aren't who you say you are

Always the same
Always the same
In a way I feel your pain
I'll take the blame
But I'm not falling for you again

Your holding on to fear
The answer is so clear
It's never too, late never too late
To want to disappear
To something that your not
Oh but you forgot
It's never too late, never too late
You just waste away

Oh you better watch your mouth with me
In what you say

You better watch your mouth with me

I know what's hidden underneath your skin
I know what's hidden underneath your skin

Always the same
Always the same
In a way I feel your pain
I'll take
Always the same
Always the same
In a way I feel your pain

Always the same
Always the same
In a way I feel your pain
I'll take the blame
But I'm not falling for you again

Your holding on to fear
The answer is so clear
It's never too late never too late
To want to disappear
To something that your not
Oh but you forgot
It's never too late it's never too late
You just waste away
