Some unions are based on trust
Some unions are a must
Upside down on a turn key-you and me
some like it on the other side
Trussed up like a turkey

Others like to play both sides
Big Girls big joys big toys
I got you covered
CHORUS
I got you covered

I'll give you gristle-you blow the whistle
Waiter service-wait for this miss
And don't you diss this-this is bliss miss
Secretly seductive, spontaneous combusive
Around the world with this Miss
Disgusting lewd rudeness
Happiness a penis-I give I give I give...
CHORUS

You can wear high heels in unusual places
And different situations can fit into new faces
All these implications
Somebody's like to roll in a sleaze
Never mind me-just do as you please
The pleasure in the leisure
All these connotations
Without the complications
CHORUS

-----I give I give I give...
