Left.

Right.

Left.

Right.

Don't look back

Take second best

Number one protect

Self interest

Here every day is a Monday, Monday

Left, right

Left, right

Left, right, left, right

Get it up, get the right armour

Don't look back

Look after your health

Good days ahead

Don't listen to the red refugees

Aliens

Go back, go back

Go back, go back

Extreme right

The face is white
Left foot, right foot, keep the shoulders up
Column eighty eight
The master plan
Uber alles
The Klu Klux Klan
Improvements on the domestic front
Have a cup of tea
Good days ahead
Don't ever look back, good days ahead
Don't ever look back, good days ahead
Don't ever look back, good days ahead
Don't ever look back, good days ahead
Don't look back, good days ahead
Don't look back, good days ahead
Don't ever look back
Improvements on the domestic front
Good days ahead
Don't ever look back, good days ahead
