We want your body, we want  
We want your body, we want  
We want your body, we want  
We want your body, we want

Oh, when you run about without precautions  
And you'll get disease and need abortions  
Up till now, no vaccination  
Can give you back your reputation, yeah

We want, we want your body  
(We want your body, we want your body, we want your  
body)  
We want, we want your body  
(We want your body, we want your body)

We want, we want your body  
(We want your body, we want your body, we want your  
body)  
We want, we want your body  
(We want your body, we want your body)

(We want your body, we want your body, we want your  
body)  
We want  
(We want your body, we want your body, we want your  
body)  
We want  
(We want your body, we want your body, we want your  
body)  
We want  
(We want your body, we want your body, we want your  
body)

Cahty, go home without your daughter  
In a welfare state, she'll be well looked after  
And it's easy now this other person  
Is off your back, not a burden

We want, we want your body  
(We want your body, we want your body, we want your  
body)

We want, we want your body  
(We want your body, we want your body)  
(Your body)

We want, we want your body  
(We want your body, we want your body, we want your  
body)  
We want, we want your body  
(We want your body, we want your body)

We want, we want your body  
(We want your body, we want your body, we want your  
body)  
We want, we want your body  
(We want your body, we want your body)  
(Your body)
