(Allan Dias Duane Edmonds John Lydon John
McGeoch Bruce Smith)

When you run about-without precautions
You get diseases-need abortions
And up till now-no vaccination
Can give you back your reputation

CHORUS

We want-we want your body
We want-we want your body
We want-we want your body
We want-we want your body
We want-we want your body
We want-we want your body
We want-we want your body

Cahty go home-without your daughter
In a welfare state-she'll be well looked after
And it's easy now-this other person
Is off your back-Not a burden

CHORUS

Body!

When you run about-without precautions
You'll get diseases-need abortions
And up till now-no vaccination
Can give you back your reputation

CHORUS

Your body!
