Where can I stand in my uniform
Wait patiently for the death of me
Cannon fodder-six foot tall
Big and brave, next to my grave

Swings and roundabouts on unfairgrounds
CHORUS
And you and me the perfect foil
Ground in the ground on the merry-go-rounds

Blood and toil swim well in oil
Unfield units to invest
Patriots do not protest

CHORUS

A brass monkey on your back
As beautiful gardenia boulders-or
The weight of the world on your shoulders
Dead meat hung on a rock

And lose the brains inside your head
Bigger the man, bigger the desk
Questioning your IQ test
Are you now so easily led
(Vamp) weight of the world on your shoulders

CHORUS

Boulders on your boack-wait patiently
For the death of me
