### "Like You Know"

You fall like you know  
And leave like you don't  
A new love for the stars  
A love for the charts

But I thought the strongest go alone?  
Don't you fall for anything  
But I thought the best go out alone?  
You won't fall for anything

Convinced yourself this is what you want  
We lived by a well  
That echoed all you'd tell  
We carved in the stone  
To love is to own

But I thought the strongest go alone?  
Don't you fall for anything  
But I thought the best go out alone?  
You won't follow anything  
Convinced yourself this is what you want  
I'm waiting for your time
