Loud screams are coming out
From deep inside
No one seems to hear
The screams of agony
You are doomed to help
Yourself out
Isolated from a world
Full of antipathy

Despised from society
Reason for insanity

Can't hear can't see can't speak
No feelings deep inside
Can't hear can't see can't speak
The pain bites soul and mind

I'm insane and I
Don't need any help
I spend my life
In a psychological cell
I am cursed to hate
The human race
This fact is not
A mental illness
It's my fate

I live my life in a real sick world
I'm inspired by the voices inside
You call it mania but it is an inspiration
It is a shelter against human influences
