Now save your breath for me.
I'm sure we've got a lot to talk about like winter nights
and endless fights and popcorn on your couch.
It's not to much for me.
I'll hold my breath until the end of time if you were
mine and we were always by each other's side.
Save all your best for me.
It's all I need to get me through the day. And if you
want to say goodbye, kiss me and say everything's
ok.
I'm sure you feel it, too.
My heart explodes with indecision and it leaks with
intuition as I spill these words to you.
Tell me what to think.
Are you expecting me to turn around and walk away?
Well, sorry girl. I'll be ok.
Because I can't stand it.
I'm missing you tonight.
I'll scarifice all I have to give if I could look into your
eyes one last time.
Pack up our old dreams; trade them in for one night
of this.
It's too late to find our way back home. Your eyes tell
the tale of a thousand kisses cut a moment short.
Just wait and you'll see there's always something
that's worth waiting for.
I don't know if I'm strong enough to watch you walk
away.
Someday, maybe you'll realize that happiness comes
with pain.
If I could give you the world, I wouldn't
I'd wait it out and hand you the stars wrapped in a
bright blue sky and ask you if they could be ours.
