We live our life
The best we can
And not aware of some great plane we
Push on
Hang on
Our friendship blooms
And then fade out
Like cherry blossoms spin around us
In wind
In rain

What you have is what you can lose
But I won't let that defeat me

So bring it on
I'm not afraid for crying now
Because I know things work out somehow
And even when life gets me down
I can still have fun
So bring it on!

We'll never know
What fate will bring
And that's the mystery of living
The highs
The lows
And you can't change
How winds will blow
Or change the colors of the rainbow
So just
Let go

We can't know what we can not see
But I still won't let that scare me

So bring it on
I'm not afraid for crying now
Because I know things work out somehow
And even when life gets me down
I can still have fun
So bring it on!

So bring it on
I'm not afraid and I won't run
'Cause I'm not alone and I feel loved
So even though things may get tough
I know I am strong

So bring it on
I'm not afraid for crying now
Because I know things work out somehow
And even when life gets me down
I can still have fun
So bring it on! x2
