"Love So Pure"

I was his
From the moment we first met
From a solo to duet, it took no time
Call it fate
Or just two hearts magnetized
But I never felt so high
Since he's been mine

:::Chorus:::

We got a love so pure
Yes a love so sure
The kind of love you hold so tight
We got a love so pure
Yes a love so sure
The kind of love that lasts a girl for life
With a kiss
I can't resist or turn away
All I want is him to stay
It's paradise
Without a word
Nothing heard we say so much
With a look or silent touch
I know we'll be alright

:::Chorus 2x:::
