"Planet Tokyo"

Visit "[Planet Tokyo](#)" on MotoLyrics.com

The city's spins are weeping and our systems go
Come hitch a ride inside and watch the moon grow
It won't be long before we're up in zero-G
Above the atmosphere just you and me and me

Chorus:

Planet Tokyo is a place not very far
In your stereo it's as close as where you are
On the radio it's the sound that you can see
Planet Tokyo is the place you want to be
Tonight
Right

You're looking well but we can tell you need a fix
For something more than just another chick flick
A riff so strong that it belongs deep underground
A beat so sweet it makes you weep when we touch
down

Chorus:

Planet Tokyo is a place not very far
In your stereo it's as close as where you are
Planet Tokyo is the place you want to be
Tonight

Planet Tokyo is a place not very far
In your stereo it's as close as where you are
On the radio it's the sound that you can see
Planet Tokyo is the place you want to be
Tonight

In your stereo it's as close as where you are
On the radio it's the sound that you can see
Planet Tokyo is the place you want to be
Tonight
Tonight
