the mountains over there behind the air balloon

sui-susui-su

the warmth that the flavors the neighbors give me
is so dreamy

such a great trip it's so cool
i'm on the train-ai-ai-ain

every landscape i see
i want to give to her
sui-susui-su
and at the shore of the lake
the most important thing is this we will kiss
smacky (x3)

it was supposed to be a great trip
but i got train sick
bambi is jumping around my head
everybody's sayin
you gotta get your feet back on the ground
