"Tokyo Nights"

It begins with a new color
A flamigo with a sexy pose
Arcade glare and sweating broiled chestnut
The dating spot at the chinese wall
Hovering among a cove of buildings
You hear a night song in a night mode
Sing tokyo nights, melting sweetly
Tokyo nights, smiling at the night
The lipstick is a new color
A dancing anaconda
I saw that hometown in a limo on tv
A man who's holding papaya
Chilled wine in classic
You hear a night song in a night mode
Sing tokyo nights, melting sweetly
Tokyo nights, smiling at the night
Sing tokyo nights, melting sweetly
Tokyo nights, smiling at the night
In the moonlight, a crowd of strangers
Stars too far away
A lady crying, in her hands a flower
Her white teeth twinkle
Sing tokyo nights, melting sweetly
Tokyo nights, smiling at the night
