We walked together  
violet garlands on our heads.

We player  
marking memories on uor way back home  
and we toof off.

Even if it rains, evenwhen alone,  
i always want to wait for the sun  
where are you going on the ship?  
Are you sure your headed towards the sun?

When i bent over,  
i picked up a little love  
that i found underneath.  
The all i hoped for took on colors like flowers.  
Do you call this affection? Or ever love?  
Dont you know that the summer is already gone?

My hearth is full,  
i cant's utter a word,  
i just want to walk  
bathend in polka dots.

Ever if i over cone the night,  
and become nature,  
i still want to walk on with the blue sky on  
my back.

Do you call this affection? Or even love?  
Dont you know that the summer is already gone?

My hearth is full  
i can't utter a word  
i just want to walk  
with polka dots all over me
