Hey lady , don't you remember you was my lover you was my friend.

Hey sister , I know you remember you left me a long night wanting back in.

Hey mama , don't you here me? I can be a sucker for your love.

Hey girlfriend , I understand it is what it is and it was what is was.

And ever since youve been gone , it's been a lot of good things going on.

And ever since you left that day , it's been a lot of good things going my way.

What can I say? The clouds done rolled away.

What can I say? Ain't nomore rainy days.

I'll tell you , when you left me I thought I would never love again.

Because you had me all confused and twisted up inside , I thought it was something that I did.

Oh honey , you wouldn't wanna know what was going on inside my head!

Now everything is fine , you're out of my mind.

I'm able to love myself instead.

Ever since you've been gone , it's been a lot of good things are going on.

Ever since you left that day , it's been a lot of good things are going my way. What more can I say? The clouds done rolled away.

What more can I say? Ain't nomore rainy days!

Now, dont you wish you wouldve stayed?

Look at the good things , good things that I've made.

I'm better without you , ever since you ran away.

Been a lot of good things , good things everyday.

Ever since you've been gone.

Been a lot of good things , good things going on.

Ever since you left that day , it's been a lot of good things good things come my way!

Ever since youve been gonnennnnnnne
