"All Those People"

Visit "[All Those People](#)" on MotoLyrics.com

How weird is reality
People watching Beauty and the Geek
How weird is reality
People wishing they were on TV

Put on your lipstick
It's friday night
Brush you hair until it looks wild
All those people alone

How weird isn't the TV
Joining couples for their nightly meal
So they do not have to speak
More then a few sentences each

Put on your lipstick
It's friday night
Brush you hair until it looks wild

All those people alone
Every night
They watch their lives passing by
