You can fight with the power of the sunshine
In the dark you become my little spark
You can fly like an angel of the fire
In the world you defend the peace and love

Super super hero
He's a super hero
Super super hero
He's a super hero
Yeah!

You can fight with the power of the sunshine
In the dark you become my little spark
I believe in the hero of the fire
From the space I can see you in a stars

Super super hero
He's a super hero
Super super hero
He's a super hero
Yeah!

Don't be surprise
If I love you
