waist deep in her  
neck deep in this  
surviving her dance of apocolypse  
call me a liar  
still ill take you just the way you are  
till you expire  
still ill take you just the way you are

pure face slashed back(?)  
two nights in a row  
i claw her back and slide real slow  
call me a liar  
still ill take you just the way you are  
till you expire  
still ill take you just the way you are

and it's in the way  
it's in the way you move your hips now  
it's in the way  
it's in the way you move your hips now  
its in the way  
it's in the way you move your hips now  
its in the way  
it's in the way you move your hips now  
its in the way  
it's in the way you move your hips now  
its in the way  
it's in the way you move your hips now  
its in the way

call me a liar  
still ill take you just the way you are  
till you expire  
still ill take you just the way you are
