You don't know the shame nor I
Sitting in a car I can not pay
Think it's not my day
I complied I don't know why
Didn't see me duty oh no
's boozing with my friends and ran away
Didn't wanna stay
Got so daunt to be that way

Sometimes I wanna dive I cannot find
The same heart as mine

I think I gonna loose my mind
This game's not mine

Deranging all my life oh no
Hang around just thinking about my fun
Daffy what I've done
Clouds above just like to dive
There's no limitation oh no
These guys give me the feeling to be alone
My heart's like a stone
The sun it shines without destination
