Erase this from my heart
The coldness in the words I speak
Fake the smile, ignore the guilt
Choking on the lies you've lied
Cut the smile right off your face
As the blood drips forms a river in red
Kill the memories from my mind
Still I taste the moments had

How can you stand and walk away

See the world for what it really is
It takes the better part of
And I want you to know
That I'll always be
True to you

Save me now from this hell I feel
You make the better part of me
And I want you to know
That they'll always be a place for you
In my heart

The Desires
Break The Promise
The desires

Nothing stays the same
Nothing feels the same
Nothing can stay gold
Nothing can stay gold
See the world for what it really is
It takes the better part of
And I want you to know
That I'll always be
True to you

Save me now from this hell I feel
You make the better part of me
And I want you to know
That they'll always be a place for you
In my heart

How can you stand and
How can you stand and
How can you stand and
Walk away

How can you let love
How can you let love
How can you let love

Wash away
Burn away
Fade away

STAY THE FUCK AWAY!
