We're the kids your parents warned you about
City-to-City we'll leave our mark
Ocean-to-Ocean can't keep us contained

We're gonna make it count this time around
Flying 36 thousand feet up off the ground
The tensions high, and it's wearing me thin
I wake up everyday, just to do it all again

And I know... that we've got what it takes
To reach new heights, and become something great

We're the kids your parents warned you about
City-to-City we'll leave our mark
Ocean-to-Ocean can't keep us contained
When you're young and at the top of your game
Let the goods times roll, and be who you want to be

This life of ours will never get old
Taken what we've learned each day, breaks the mold
Knowing that we did all this for you
Our dreams now, they finally followed through

And I know... that we've got what it takes
To reach new heights, and become something great

We're the kids your parents warned you about
City-to-City we'll leave our mark
Ocean-to-Ocean can't keep us contained
When you're young and at the top of your game
Let the goods times roll, and be who you want to be

I never thought it'd be this hard
To get up, Get out on our own
Take a look around, at the roads we've traveled
That got me where I am today

We're the kids your parents warned you about
City-to-City we'll leave our mark
Ocean-to-Ocean can't keep us contained (x2)
