Lets keep this story going
Stuck on repeat, traveling straight in an upward motion
I've got nothing left to loose because being average
was yesterday's news
All packed up, Turn the stereo up
Dance around till' the neighbors call the cops or we get
caught
We'll find ourselves running through the streets on
hazy cold nights avoiding every streetlight

This is who we are, I wouldn't change it for the world
Another party, another night
These past 18 years have been the best ones of our
lives
But now it's time to say goodbye

They say that friends are forever
That we're all in this together
The truth is, people change, and memories they fade
away
But to me this place will always be the same

We've got our feelings all wrapped up, packed in the
bottom of an empty box
It's not the same as moving on
Hold on to everything we've got, it's time to give this
one last shot
Try to hold on to the Hopes and Dreams and Memories
That define the past and what would be

This is who we are, I wouldn't change it for the world
Another party, another night
These past 18 years have been the best ones of our
lives
But now it's time to say goodbye

They say that friends are forever
That we're all in this together
The truth is, people change, and memories they fade
away
But to me this place will always be the same

This is how the story ends, flash back to where it all
began
Moments like this that can't last forever
When it all comes down to this, knowing that I won't
forget you
But I will always be right there to catch you

They say that friends are forever
That we're all in this together
The truth is, people change, and memories they fade
away
But to me this place will always be the same (x2)
