"Moon Baby"

Visit "[Moon Baby](#)" on MotoLyrics.com

lets take a blast to the moon baby
i sit around wishing you well
how im craving you, yeah!
every time im near you
i always wanna swallow you down
ill be right here if ya need me
in my life, ill need you here, dont ask why
ill never disappear
why is it everydaythat i feel the pain?
lets take a trip to the stars far away
where were you when i was down?
staring into the dead
my pain is caused by my pleasure
my soul mate lives in your body
i cant get you out of my head
it never goes away
in my life, ill need you here, dont ask why
ill never disappear
in your eyes you can bid me farewell
but dont ever try to understand the situationwhy is it
everyday that i feel the pain
