NAME

AND even though the moment passed me by
I still cant turn away
I saw the dreams youd never thought youd lose
tossed along the way

Letters that you never meant to send get lost or thrown
away

And now Ive called upon things that never knew there
names
dont belong to no one thats a shame
You could hide beside me maybe for awhile
and I wont tell no one your name.

I wont tellem your name

The scars are silverish that youd never lose the passed
is never far,
Did you lose yourself some where out there..
did you get to be a star
Dont it make you sad to know that life..
is more than who we are

You grew up way too fast.. , and now theres nothing to
believe and re runs all
become our history a tired song keeps on playing on
that tired radio,
And I wont tell no one your name

And I wont tell em your name

And I wont tell em your name

And I wont tell em your name

I think about you all the time,, that I dont need to
sing,,,,

As lonely were you are .. come back down and I wont
tell em your name
