Are you listenin' now ? Are you feelin' that way Aren't  
you terrified? Of wakin' up too tired to try again? Are  
you happy now That you've shut yourself down Are you  
paralyzed By all the nonsense that's gone down I know  
you're gonna see these things some day Sorry-eyed we  
spent so much of your time Now I'm tryin' to put your  
riddle to a rhyme Now it's up up up I'm headin for this  
evenin' And it's up up up I'm headed for the clouds  
Comin' down ain't the worst part It only takes a second  
To make a change that's gonna last I hope you're  
gonna see these things some day So don't stop lookin'  
for that light along the way Sorry that we've spent so  
much of your time Now I'm tryin' to put your riddle to a  
rhyme Now it's up up up and headin' for this evenin'  
And it's up up up I'm headed for the clouds
