(Infinte, enough
Not again, come on, come on
Gotta go, fo' sure, fo' sure
I can't move, can you look it down?
Lift it up, move out, move out
Prob'ly can't, come on, come on
Closer, 'cause I'm out, I'm out
I'm leavin', you know I'm leavin)
People tight like spandex
Thought I was the man next
After the badge who submitted
Got locked down
Baby knocked down all the walls
That led straight to Ohio
The heart of it all and place
Where I started to fall
She had a body of heaven or hell
I can't tell
'Cause her ass say 'Hey!'
But her smile say 'What?' (Say what?)
Cut to the chase

That I never could catch
Just gettin' caught up
In soft skin and hard luck
(Stuck) in between tryin' to stick
And makin' my pick
Feelin' more like a brick
As every day went by
I would try to let her know
But she knew how to play
Those love games, drive a man insane
Deceitful plain Jane
Had me swingin' like Tarzan
When I fell off the vine
Man she had no shame
And flip you out like flat tires
When she tried to gas me
Buyin' buckets and bottles
Puttin' the throttle to the metal
I was stuck pickin' petals
(Like 'she loves me, she loves me not)
But in the end
She just blew up my spot
(Mad aim)
Thinkin' if we were together
Then she'd prob'ly try to change me

And not go crazy, but I'm crazy anyway

('Cause she loves me not)

This is the getaway scene

It's time to plot and scheme

To find another feem

To be down with my team

'Cause this one shattered my dreams

It doesn't matter, it seems

Like she was never there

Heart breaker

Yeeeeeah.....

[Verse 2]

Used to feel like heaven

When I tickled her spot

From the age of eleven to nine

(Felt to mine)

I was shut like blinds to the ways of ladies

I couldn't remember

(Of all my letters she's the main sender)

Puttin' strain on levels of my life didn't happen

Tappin' into me

Seein' that hurt was all supposed to be

And was it possible that she got way too close to me?

'Cause in my face and under my nose

Were things I didn't see

But were my eyes open?

Was my wakin' up to my crib (smokin' and flamin')?

For these types of things there's no containment

So the moments of meditation got longer, deeper

Wonderin' if I would (leave her), if I should (keep her)

My sister told me I should never be a thrill seeker

Shorty knew me way back when I used to boost sneakers

Connected like a hand and wrist to stay stiff

Lookin' in her eyes always took me on a strange trip

Plus the words that she spoke seemed true

When she said 'I dreamt of you'

Who knew that 'you' wasn't me?

Puttin' images in the mind is just a possibility

And my emotional state began to slowly fluctuate

(I found letters)

On how she loved some other cat better

And it got explicit (internal organs felt twisted)

I knew from the beginnin' but somethin' said 'risk it'

Like the mention of the name

If you're never injured, no pain, right?

(Infinte, enough

Not again, come on, come on

Gotta go, fo' sure, fo' sure

I can't move, can you look it down?

Lift it up, move out, move out

Prob'ly can't, come on, come on

Closer, 'cause I'm out, I'm out

I'm leavin', you know I'm leavin)
