"All Fall Down"

Cinnamon, you're crawling on the ground
Hit by a wrecking ball, too bad we all fall down
Back and forth, yeah we go back and forth
Until the death of us, too bad we all fall down

Once you were reckless, now you're just broken
Like little fingers crushed by the ocean
Black like the midnight, cold as the desert
You'll pay your penitence, get what you deserve

All fall, all fall down

Cinnamon, you're crawling on the ground
Hit by a wrecking ball, too bad we all fall down
Back and forth, yeah we go back and forth
Until the death of us, too bad we all fall down

Once you were reckless, now you're just broken
Like little fingers crushed by the ocean
Black like the midnight, cold as the desert
You'll pay your penitence, get what you deserve

Once you were reckless, now you're just broken
Like little fingers crushed by the ocean
Black like the midnight, cold as the desert
You'll pay your penitence, get what you deserve

All fall down
