

6 Eve "Enemy"

I took a ride to meet an enemy
October light shown bright through the windsheild
Right into my eyes, where I was silent riding shotgun
Chewing on some sugerfree gum
Parallel park and pay the meter
If I die before I leave tell her I'll never leave her
I am fine just a little broken up
Ok my nerves have never been so shot
Can't get this shit off my mind
I just want to be alright
So just tell me nothings wrong
Then get undressed and spend the night
The autumn sun burning logic in my brain
I'm asking why there is pleasure when there is pain
I'm here to pay for my mistakes in a humiliating
manner
If there is a next time, I will cover up
I feel alone I feel shaky and uncertain
A kind man shakes my hand and draws the curtain
In a word he saves my life then I exit out the enter door
and smile
Can't get this shit off my mind
I just want to be alright
So just tell me nothings wrong
So get undressed and spend the night
I took a ride to meet the enemy
I faced a fear of mine and shivered but didn't blink
I took a ride to meet the enemy to end all the madness
And now i know that I'll be fine
I am fine
Can't get this shit off my mind
I just want to be alright
So just tell me nothings wrong
Then get undressed and spend the night
Just want to be fine
