It said "Fok Karina" on the wall  
we were leaning,  
I get a feeling and she starts to grin  
adjusted my pants as my face turns to red  
Foresight is so often blind

Just take the two to the one thirty four  
but first take the elevator to my floor  
its good to be bad if its better than bored  
foresight is so often blind  
slur to a faverite rhyme

Chorus:  
Girl eyes tend to hypnotize  
the trance is so divine  
decide to be the reason why  
I stay another night.

Vodkareening through the hotel door  
Guilty is really a choice and a chore  
its good to be bad if its better than bored  
foresight is so often blind  
slur to a faveroite rhyme

Chorus:

I took her hand and then an asprin in the morning  
I took her hand and took her home.

It said "Fok Karina" on the wall we were leaning on  
Afraid of a common phenomenon again

Chorus: x2

Hypnotize, With the life I was pressing so divine.  
hit the lights
