You're the one stepping on the back of my shoes  
You're the one using me as a muse  
You're the one with the jet pack strapped to your back  
ready to go

It's you and her and nobody else the lights are low and  
she's so ready  
You're already on your way to the door  
You're at the bar the tender gives you a free drink and  
winks, she's perfect  
You sweat bullets, spill the drink and you leave  
Everyone leaves the party except a gorgeous twenty  
something, you turn and run  
You call me up

You're the one stepping on the back of my shoes  
You're the one using me as a muse  
You're the one with the jet pack strapped to your back  
ready to go

So the way you act, is it just an act or some strange  
courtship ritual  
A habitual nervous reaction  
Hey it's just me, set yourself free, why don't you let me  
know what's going on  
Inside your cluttered head

You're the one stepping on the back of my shoes  
You're the one using me as a muse  
You're the one with the jet pack strapped to your back  
ready to go

What the hell are you talking about is that what you  
would say  
If I were to wonder out loud would it make you turn  
away  
Just a curious question

If it was you and me and nobody else would you want  
me to want to be ready to go  
Would you want to take the lights down low

You're the one stepping on the back of my shoes  
You're the one using me as a muse  
You're the one with the jet pack strapped to your back  
ready to go

Hey it's just me, set yourself free, why don't you let me  
know what's going on  
Hey it's just me, set yourself free
