There's a face I know too well I see it every time I look
in the mirror
No I don't kiss and tell I'll tell you after I betrayed you
Supersonic boy sweating sin
The pillar that I'm melting on will prove you wrong
Keep your lips sealed this just in
You're speeding up the ticker of a walking time bomb
Time's up stand up face the Muzac Smile wide step
outside
Click your sticks and cast spell that'll suck my saliva
like water from a well
I try to do what's right what's right ain't right enough
for you tonight
I see you're displeased a middle finger response
I'll try to appease
I'm sorry don't be mad but ask me what
I'm sorry for and I won't have an answer
Look me in the eye and let 'em flow again
Lies on the rocks with a twist of desperation
