I am sorry if I've burnt your fucking skin
I kiss your shrivelled lips as fucking grin
When I beat you up, you squeak for more
Fuck bizarre is what you're looking for
Stinking cunt, fat and old
Fuck bizarre - I've never been so far
I take care to leave no fucking scar
Senile bitch in leather and chains
For three weeks the stench remains
She's just not dead
Pins and whips
Klyster, incredible
You eat my shit as I told you to
To drink my piss is nothing new
Explore your frontiers - long way to go
Grandma I hope you like it so
Fuck bizarre
Grandma
