# **"Heart Attack"**

Visit "[Heart Attack](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You told me to turn the other way  
I did, I thought it was OK  
Now I hear that you're never coming back  
And I'm about to have a heart attack

Medication won't work this time  
I'll just sit here, singing this rhyme  
You're never coming back  
And I'll have a heart attack  
How could you do this to me?

Despite my pain, I got in my car

Had just enough strength to make it to the ER  
I was long gone when you heard about my death  
"Explore the memories" is what I said with my last  
breath

Medication won't work this time  
I'll just sit here, singing this rhyme  
You're never coming back  
And I'll have a heart attack  
How could you do this to me?
