take this tape: a soundtrack to my brain of things that i
just can not say to you. its boiling up. i'm on empty. you
can't see the scars inside. all i know is i'm unknown by
these things i can ntot say. rewind. cause pausing won't
cut it this time. you're mine. so why can't you
understand my mind? you've gone way too far tonight.
you've gone way too far tonight. you look confused.
that is nothing new. trace he steps. read the text.
rewind. cause playing won't cut it this time. switch
sides. why can't you understand my mind. just this one
time. rewind this time. take this tape. throw it down.
pick it up and run around. watch it fall. now i see. now i
say what have you done?
