somewhere in the dark i wonder if you know
how truly happy i was sitting next to you
then you took the cat and car and drove away
and i had to figure out how to be alone
i carried around my phone and waited for your call
it's funny you needed me now you don't need me at all
now i do what i want when i want
and you, well i don't even know where you are

i've got some news
i might like it better without you baby
what does that prove
the moments passed and i am fast asleep

now i play guitar and hang out with my friends
i have your blue shirt it's still sitting on my bed
strange how it the scent makes it feel like you're here
but i like the blue shirt more than you

i've got some news
i might like it better without you baby
what does that prove
the moments passed and i am fast asleep

i've got some news
i might like it better without you baby
what does that prove
the moments passed and i forgot what i was singing
about now
i've got some news
i might like it better without you baby
