(Flash in the night)

Moving into the dark
Am I runnin' to you, I still don't know
Somethin's got a hold on me
It's amazin' what I feel

Getting out of my room
With the feelin' I'm gonna see you soon
Come on baby don't be late
Lovin' you would be so great

Face to face
With your eyes in mine
They burn my soul inside
And I cannot find

Flash in the night
It's the light shinin' from your body
Flash in the night
It's alright it kept me alive
Flash in the night
From the sky like a dart of silver
Flash in the night
Every time you come it's a flash in the night
