rotting fetus in your womb  
your own body is his tomb

mucus little brat  
drowned in clothing blood  
disgusting gastric juice  
drops out from your mother's vagina

pungent stench of festered gore  
your pussy is a viscous sore

worms in your entrails  
pray upon the melted embryo  
corroded brain and skin  
your skin died for your sin

too many drugs in pregnancy  
you killed your child but now it kills you

titanic waves of bestial stench  
comes from your mouth it's the child's revenge

bursting boils, nauseous flood  
malformation and yellow blood

now you can dig in your baby's guts  
tear the corpse out and see what you've done

don't repeat this mistake, now you can get your  
punishment  
he little brat will rip you still the end
