Caressed by the tearstained gale  
To dance across the oceans  
For dusk and eternal dawn  
Embrace me, oh moon, as with the sculptures thou did  
Spread thine pure candle fit upon my memories  
Romantic in my tears, tears that bleed for thou  
In silence I can hear the violins of the dying beauty  
Look at the heaven is vault  
As you and so I feel like  
A flowing and leaving shadow  
A dark, sombre spectrum  
Spread thine pure candle fit upon my memories  
Lost in tragedies of forsaken dreams  
Embrace me, oh moon, as with the tears thou did
